Domestic Violence Prevention (DVP) Mobile Application

Now Available for Download to Apple iOS and Google Android Mobile Devices!

What is the Domestic Violence Prevention (DVP) Training Mobile Application?

The Navy's DVP app is a mobile training and resource tool that provides easy access to information and training that satisfies the Navy's General Military Training (GMT) requirements for Domestic Violence Prevention. The training module within the DVP app is designed to satisfy the following learning objectives:

- Define domestic violence
- Identify the types of domestic violence
- Identify some factors associated with becoming an abuser
- Identify the three phases within the cycle of domestic violence
- Identify some tactics used by abusers in domestic violence cases
- Identify some ways domestic violence affects children

Once training is completed, the app allows the user to document completion of their GMT training completion requirements in the Electronic Training Jacket (ETJ) using their DODID number. This feature supports the Navy's ongoing efforts to provide Sailors with "anytime/anywhere" access to information and ability to complete training requirements when it's convenient to them. PLEASE NOTE: To successfully submit a course completion from an NMCI issued mobile device, an external e-mail account must be set-up.

In addition to the training, the app provides links to key DVP resources. This includes an "Emergency" contacts section that is available to the user 24/7, such as the National Domestic Violence Hotline and Military Crisis Line. This quick and easy access to resources makes it ideal for Sailors of all ranks.

The DVP app aggregates information from a variety of sources. Please be aware that some of the information contained in the app may be out of date or no longer valid. Information will be checked periodically for accuracy and updated as needed and released via periodic DVP version updates.
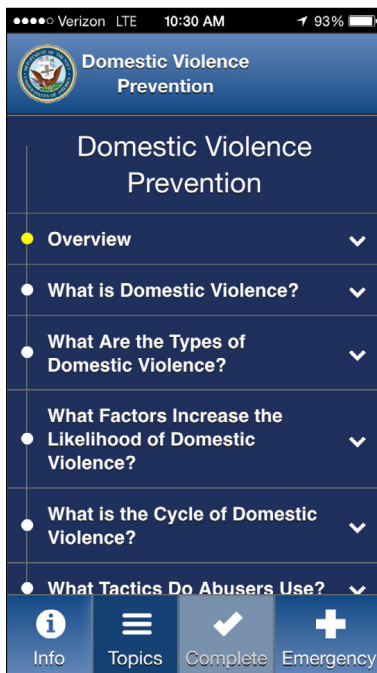

DVP is the second mobile application developed and released by the Sea Warrior Program (PMW 240)

NAVY
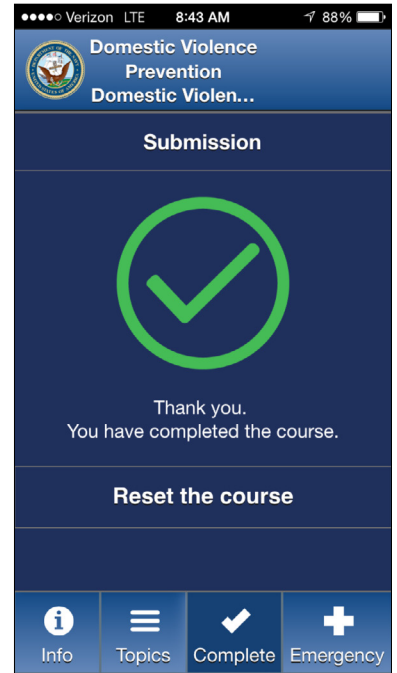

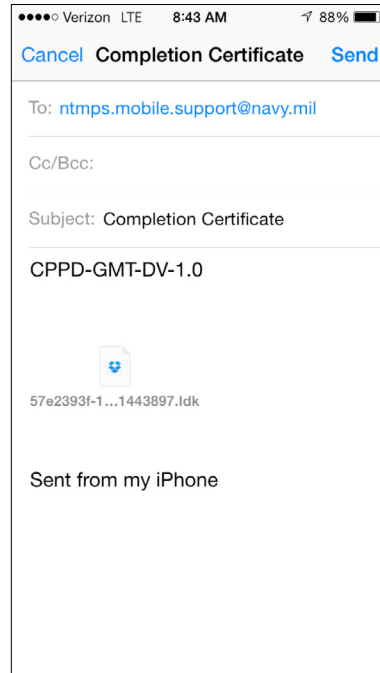

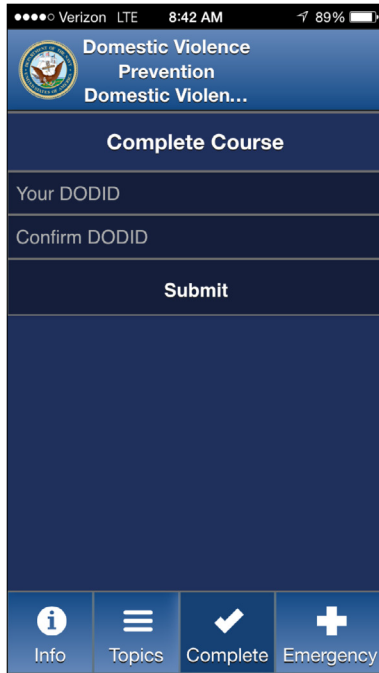

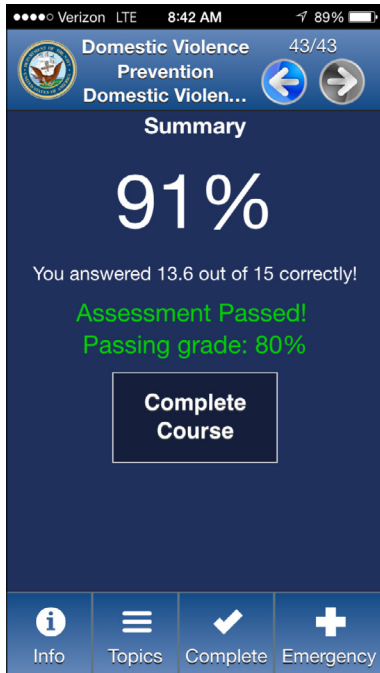

For Course Verification:

1. Users should retain course Completion Certificate emails in their mobile phone Sent Items folder until successful posting in the Electronic Training Jacket (ETJ; military only) or Fleet Training Management Planning System (FLTMPS) can be verified; posting should occur within 72 hrs.

2. If completion does not appear in ETJ or FLTMPS after 72 hrs, users can forward a copy of the email to their supervisor or FLTMPS Coordinator/Training POC as verification of completion. If necessary, FLTMPS Coordinator can record manual DVP completion in FLTMPS Learning Event Completion Form.

3. Users may contact NTMPS Support Office at ntmps.support@navy.mil or 1-866-438-2898 if they have any concerns.
